All Out for War

Now that the machinery is really rolling, shortages are beginning to make themselves felt.

Lack of manpower and materials will necessarily curtail our supplies of rooted cuttings, small stock for growing on and many items in plants.

Supplies of flower seeds are expected to be ample for anticipated needs except in a few instances, however, shortages are showing up in some items of vegetable seeds mostly due to weather conditions.

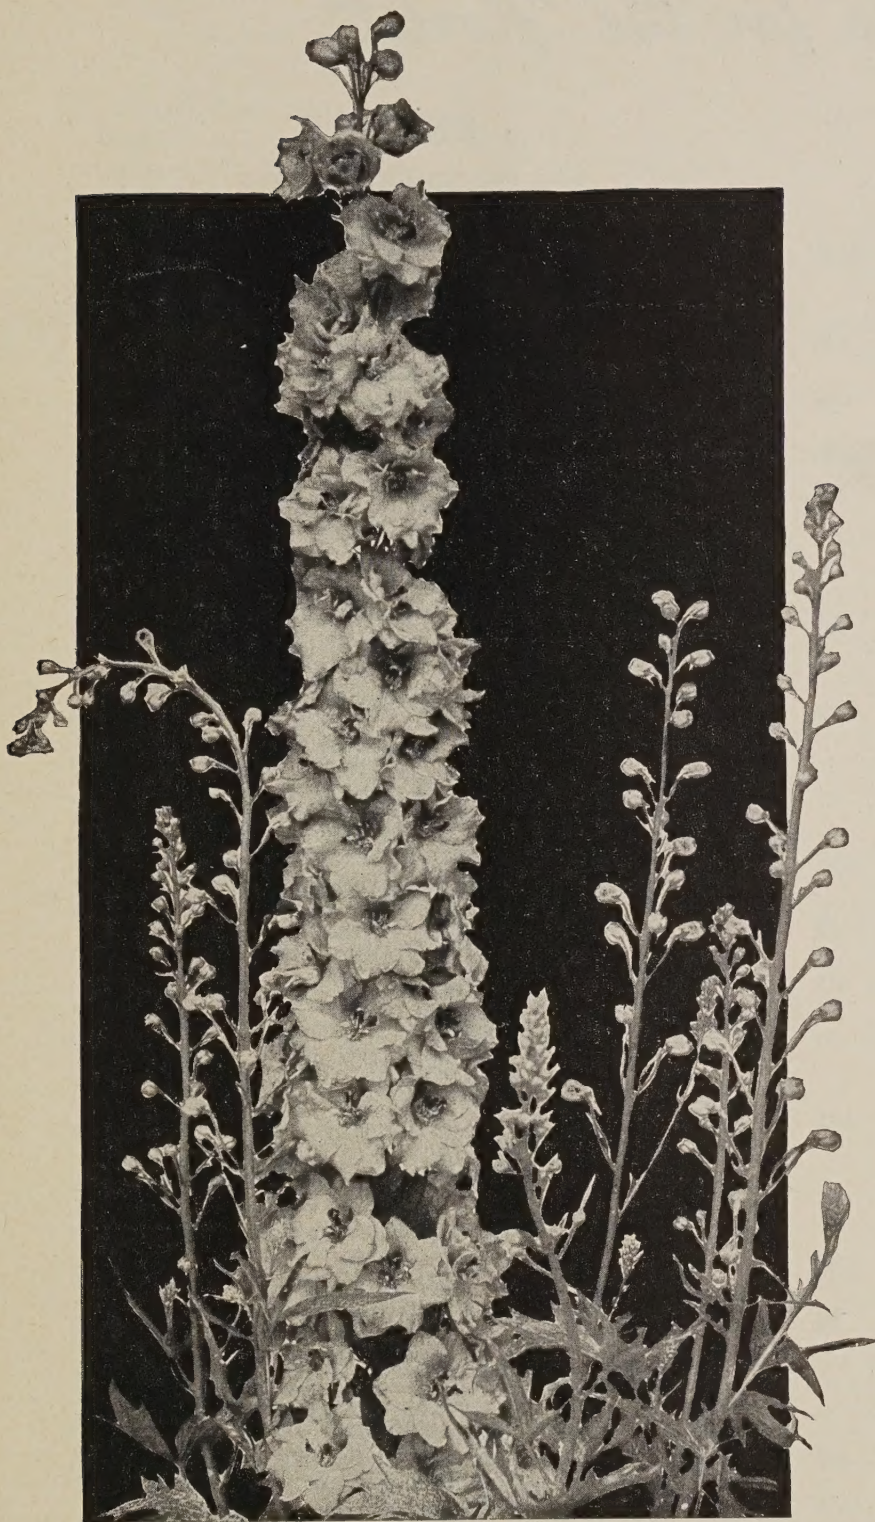

There will be more Victory gardens this coming summer than ever before. Plan for an ample supply of vegetable plants.

We at Somerset have great faith in continued demands for the products of our industry and we know our customers are all doing their share in producing for Victory. We shall continue our efforts to serve you and we hope you will help us, and yourself by ordering early.

AGERATUM (Floss Flower) (21000 seeds per oz.)

Blue Ball. Dwarf, deep blue15 2.00
Blue Ball Improved. more compact than the above, and a superior strain. 1/4 oz. \$1.25 .50 4.00
Blue Cap. Miniature, large flowered medium blue. 1/4 oz. \$1.25 .50 4.00
Blue Perfection. Semi-dwarf blue.15 1.50
Golden Ageratum. Really golden yellow, forming compact 10-12" rounded plants. Given room and plenty of food it makes an excellent cut flower item on 20" stems 1/8 oz. \$1.25; 1/4 oz. \$2.00 .35
Midget Blue. The best of all dwarf Ageratum from seed. Very dwarf, compact, free flowering and an attractive shade of blue. Ideal for bedding. 1/4 oz. \$1.50 .50 5.00

ALYSSUM (Sweet Alyssum) (60000 seeds per oz.)

Carpet of Snow. The uniform compact growth of this variety has made it the most popular sort we handle. Our strain is especially reselected. 1/4 lb. \$2.25 .15 .75
Lilac Queen. Dwarf, compact, lavender lilac15 .75
Little Dorrit. Makes dwarf compact balls of pure white flowers. One of the best15 .75
Little Gem. A select strain of this old favorite15 .75
Violet Queen. Attractive violet flowers make this a nice item for edging and contrast. 1/4 oz. \$.35 .20 1.25

AMARANTHUS (30000 seeds per oz.)

Useful plants for summer bedding and display.
Molten Fire. Brilliant poinsettia-like tips.25 1.35
Tricolor Splendens. Yellow, red and green15 .50

ANCHUSA (1200 seeds per oz.)

Blue Bird. Sprays of forget-me-not like, indigo blue flowers are produced freely. Excellent to cut15 .75

MORE IMPORTANT THAN EVER—

Sterilize all soil used for sowing seed. One tablespoonful of Formaldehyde solution diluted with six of water thoroughly mixed with a flat of soil will kill most fungi. Seed may be sown 12-24 hours after treatment.

Save time, seed and labor.

SNAPS

FOR GREENHOUSE FORCING

The best possible strain you can get, is the first step toward a profitable crop. The originator has a selfish interest in keeping his introduction up to the highest possible standard, therefore because of this, we handle originator's greenhouse grown strains almost exclusively.

NEWER INTRODUCTIONS

Better Times. The color of the Better Times rose with the habit of the profitable and popular Christmas Cheer.
Bronze Christmas Cheer. Deeper than Suntan in color, non-shattering. Flowers at the same time as Christmas Cheer with stronger stems.
Carol Jean. Attractive yellow a shade lighter than Ethel.
Christmas Cheer. The most popular pink.
Goldie. A fine yellow introduction by Windmiller. Attractive, free flowering, good habit and early.
Jersey Maid. An early large flowered light pink increasing in favor.
Paper White. A pure white introduction by Schlegel, an improvement over his Early White.
Peggy Schumann. Fine early rose pink.
Super White. A large flowered pure white, highly thought of by those who have seen it grown.
Talisman. Bronze and gold shades, with double and semi-double blooms.
 Originator's Packets of the above \$2.00
 Any three \$5.00; Any five \$7.50
Bezdek's White Wonder Imp. Excellent early white.
Ethel. Fine early yellow, probably the best, undoubtedly the most popular.
Earlier Glorious. A selection by Windmiller that will flower several weeks before the regular type.
Gilbert's Pink Supreme. Deep rose, preferred by many over Rose Queen.
Koester's White. A splendid pure white and one of the best.
Klondyke Supreme. Rich deep yellow, producing heavy spikes. Good for late winter and spring.
Marie Louise. Light shell pink, best for Spring bloom.
Lucky Strike Improved. A distinct improvement on the original. Earlier and with more and better spikes.
LaFrance (Gladiolus Flowered). Very large flowered soft rose, recommended for flowering February 1st and later. An excellent substitute for Mary Ellen which has not been available.
Radiance Improved. An improved strain of this very fine variety. Medium deep pink, free flowering and early.
Salmon Gold. Several shades lighter than Glorious. Flowers early and excellent for a winter flowering bronze.
St. Louis Early Pink. Vigorous and robust growing with light silvery pink blooms.
Terry's Surprise Improved. Rose shaded orange.
Earlier Westover White. A great improvement in earliness, color, purity and uniformity. Recommended as an all season white.
White Prosperity. Continues to be a popular, profitable all season white.

SNAPDRAGON—Continued

Windmill's Lilac. Absolutely true to color and the best in this shade.

Originator's Packets any of the above **\$1.50**
Any three **\$4.00**; Any five **\$6.50**

STANDARD VARIETIES

Afterglow. Golden orange, an old favorite.

Ceylon Court, Dark Selection. A good early yellow, however Ethel is more profitable.

Cheviot Maid Supreme. At one time the most popular pink, now supplanted by Christmas Cheer. Still a good variety.

Christmas Red. Extra early crimson.

Lucky Strike. A vigorous late white. We recommend the improved variety as being more profitable.

Maiden's Blush. Appleblossom pink.

New Cincinnati. The standard light pink.

Rose Queen. Vigorous deep rose pink.

Rose Pink Cheviot. A good selection.

Snow White. Without question, the best late white.

Suntan. Early flowering orange tan.

Westover White. Rather late but when well grown a profitable sort.

Velvet Beauty. The standard American Beauty red.
Originator's Packets of any of the above **\$1.00** each

Most of our customers prefer originator's seed as it is nearly always more true to type. We can also supply above mentioned standard varieties not originator's seed at **\$1.00** per packet; any three for **\$2.50**; any five for **\$3.50**; 1/2 packet **\$0.60** each. This seed is less liable to be true and therefore we recommend originator's strains.

ASTERS

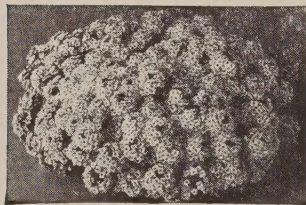

(12000 seeds per oz.)

Wilt is a soil borne disease and can only be entirely prevented by soil sterilization. This is comparatively easy and inexpensive. Where steam is not available, formaldehyde gives good results. We will be glad to furnish instructions on the use of this material. Where the soil is reasonably clean of wilt, good results may be had with wilt resistant strains such as we offer. Yellows is carried mainly by leaf hoppers and, to prevent infection, cloth or greenhouse protection is necessary. The longer stems and larger flowers usually pay for this extra care.

QUEEN OF THE MARKET IMPROVED (Wilt Resistant)

PANSIES

PANSY

Garden State Giants. The DeLuxe Pansy. Careful comparative tests lead us to believe that this American bred strain is outstanding for the immense size and heavy texture of the flowers, the fine compact yet vigorous habit of the plant and its remarkable resistance to summer heat. Truly a pansy "that will sell when others go begging." 1/8 oz. **\$1.75**; 1/4 oz. **\$3.00**

Swiss Giants
Excellent for bedding or basket sale. The flowers are of medium size compared to the Garden State Giants, but are produced very freely on compact vigorous plants. The colors are unusually true.

Cardinal (Alpenglow) garnet red.

Berna, dark violet.

Coronation Gold, pure yellow.

Lake of Thun (Thunder See) gentian blue with dark blotches.

PETUNIA

ALL DOUBLE DWARF FRINGED

Victorious Strain (220000)

This All Double strain was almost indispensable, however due to war conditions no new seed is available. When this catalog went to press we had a limited supply of the following:

Special Blend. A formula mixture of named varieties 1/2 Tr. Pkt. **\$1.50**

PETUNIA—Continued

PLEASE NOTE—This seed has been carefully tested for germination and has proven satisfactory. Because of its scarcity and value, we recommend special care in preparing the soil for sowing and after care with regard to water, shading and transplanting.

All Double America (Silver Medal A.A.S.—1943)

A 100% American introduction producing medium size carnation flowered blooms in a bright shade of pink. More satisfactory for outside bedding than the Victorious Strain. It produces its flowers very freely all summer on compact plants.

GIANT DOUBLE RUFFLED AND FRINGED

Originally developed from the famous Shepherd Strain. Noted for its fine color range, this has been refined to where it is more compact and produces 65% true double fringed flowers of immense size. The balance are semi-doubles and singles which because of their gigantic size and color will sell readily.

This strain is superior to the All Doubles for bedding and box work and makes an excellent pot plant when well grown. Because of their vigor they must be grown close to the glass with plenty of ventilation.

SALVIA (Scarlet Sage) (7500)

Quality of strain is just as important in Salvia as in any other item. Long before the war we grew our own seed to insure getting true even stock and we have continued improving our strains steadily until now we have something really outstanding. Regardless of the variety you buy you may depend upon it to be the best you can get.

America or Globe of Fire. Compact rounded bushes averaging 24" in height, blooms early and continuously.

STOCKS

(19000 seeds per oz.)

This important cut flower lends itself especially for war time use. Requires little heat or labor, the column varieties being especially valuable in this regard. Careful selection of the strongest and notched leaved seedlings and proper feeding (1 lb. ammonium sulphate to 100 sq. ft. every two weeks until buds form) will assure a very high percentage of doubles.

GIANTS OF CALIFORNIA

This type is similar in habit to the Bismarck, except that they are much stronger growing with longer stems, larger flowers and spikes. Planted 6 x 8, they will produce a number of stems, however grown close 3 x 6 they can be grown to a single stem like the columns. Many consider Santa Maria, grown in this manner, the most profitable of all stocks.

Golden Gate, yellow. **Mojave**, rich velvety purple.

Monterey, clear bright pink. **Pacific**, blue.

Red Woods, blood red. **Santa Maria**, pure white.

Tahoe, lavender. **Yosemite**, rose.

HARDY PHLOX

We have specialized in growing a large quantity of Phlox each year for many years and make it a point to try out almost every new variety. Before adding any sort to our list it must in our opinion be distinct, healthy and vigorous. You can select any of the sorts listed below with confidence.

(T) Tall (M) Medium (L) Low

HARDY PHLOX		
A. L. Schlageter (T). Vigorous healthy grower with large pyramidal clusters of bright scarlet carmine overlaid with orange. The most popular red	1.75	12.00
B. Compte (T). Late, tall growing popular rich wine red	1.50	10.00
Caroline Vandenburg (M). A fine lavender blue with large individual blooms and trusses	1.50	10.00
Captain Koehl (M). Rich deep yet lively red. Very large trusses and individual florets	1.50	10.00
Cherry Ripe (T). One of our own seedlings. Vigorous grower with large heads of luminous scarlet rose blooms	1.50	10.00

Roses

THE NEW DAWN—Plant Patent No. 1

Hardy, truly repeat blooming, climbing rose. Will give continuous bloom from early summer until stopped by frost.

The dark green glossy foliage is ornamental at all times and practically immune to insects and diseases. The flowers are exquisite in form, delicate blush pink in color and excellent as a cut flower because of their long stems and intense fragrance.

A real door yard rose, it can be used as an arching shrub or to cover a trellis or wall. Truly a rose you can recommend.

Lawn Grass Seed

SUPERFINE EVERGREEN MIXTURE

This is indeed a superfine lawn mixture including mixed Bents and White Clover. The fine grasses included in this mixture germinate and develop slowly but produce a beautiful permanent lawn when conditions are favorable.

\$0.60 lb; 5 lb., \$2.50; \$8.50 per 20 lb.; \$38.00 per 100 lb.

OLD ENGLISH LAWN SEED MIXTURE

The result of skillful blending of various fine leaved grass seeds, including White Clover, produces a lawn of excellent quality and beauty enduring all season.

Bu. (20 lb.), \$8.00; 100 lb., \$30.00

SEASHORE FORMULA

Composed of grasses that will thrive under adverse conditions, such as sand low in fertility and moisture and intense heat.

Peck, \$2.25; Bu. (20 lb.), \$8.00; 100 lb., \$30.00

SPLENDOR LAWN

A moderately priced mixture, containing no White Clover that is capable of producing a satisfactory sod in a short time.

Peck, \$1.50; Bu. (20 lb.), \$5.50; 100 lb., \$20.00

WHITE DUTCH CLOVER 98% PURE

5 lb., \$5.00; 25 lb., \$20.00

WHITE DUTCH CLOVER 70% PURE (TIMOTHY MIXTURE)

5 lb., \$4.00; 25 lb., \$17.50

SHADY LAWN

Blended of species that have been proven by test to best survive shaded and adverse conditions. This mixture is capable of producing a fine close knit turf under trees, in areaways, etc., where little sunlight is able to get through.

Peck, \$2.50; Bu. (20 lb.), \$8.50; 100 lb., \$40.00

LANDSCAPE

A thoroughly recleaned, weed free mixture, excellent for a quick sod.

Bu. (20 lb.), \$4.00; 100 lb., \$15.00; 1000 lb., \$140.00

Breeding Counts . . .

Quality of strain is important in Seed, now as never before. It has always been our endeavor to supply you with the best available strains of all types, and, now that food is so important, we are particularly proud of our strains of Tomatoes. Each variety we are offering has been obtained from sources who we believe have really superior types. Every seed sold as Marglobe, will not always produce the same and if you want to give your customers the best, you will make no mistake offering them plants grown from our seeds.

The following are a few varieties we offer for your special consideration. See page 27 for prices.

JOHN BAER CROWN PICKED CERTIFIED. This variety was grown by one of the largest greenhouse growers in New Jersey, last season, for a spring crop, with marked success.

JUBILEE. Delightful for the home garden. The attractive orange yellow fruits have a delicious flavor and make an excellent juice.

MARGLOBE CERTIFIED. A superior strain of this popular sort, selected to produce a maximum crop. For extra quality we recommend the Crown Picked Certified seed which is taken from the earliest and best fruits.

NORTON CERTIFIED. The best late sort in our opinion. Heavy, dark red fruits.

RUTGERS CERTIFIED. Highly popular because of its mild flavor, vigorous growth and heavy production.

WALTHAM FORCING. Highly successful when grown under glass in the northern tier of states where this type of forcing was done long before the war.

VICTOR. A new, very early type and recommended for the home gardener.

A Real American Dooryard Rose

The New Dawn

Plant Pat. No. 1

Hardy — Really Blooms All Summer

Dark green glossy foliage

Vigorous climber

Well formed, double, fragrant flowers

You can recommend it.
